

ERN-LUNG ACADEMY

ERN-LUNG is one of 24 European Reference Networks for rare diseases set up and financed by the European Commission.

In 2022 we have built the ERN-LUNG Academy, in close partnership with the European Respiratory Society (ERS).

For whom ?	For medical doctors and specialized medical staff at any stage of their professional life, practicing inside the EU (plus the Western Balkan States, Ukraine, Switzerland, Norway, UK, Turkey, Israel) who wish to acquire more knowledge and practical experience on rare respiratory diseases.
What to expect ?	E-Learning material (Webinars and Case reports) which describes rare respiratory diseases, their diagnosis and care.
Only theory ?	The Academy also consists of a practical part, which is a stay (at least 3 days, possibly up to several weeks) in one of the hospitals of ERN-LUNG, all over Europe. Applicants can select a hospital in accordance with their preference and possibilities. The stay (transport and accommodation) will be fully financed by ERN-LUNG, but only for participants from inside the EU.
How to apply ?	For the first year of the Academy, ERN-LUNG wishes to receive as many applications as possible, since they have a very good chance to be accepted. Please send your application letter (explain who you are and why you are interested in respiratory rare diseases) to this address: info@ern-lung.eu
Is there a deadline ?	We wish to have our first "class" of participants selected until the end of 2022. Hence, applications should be received until Dec 1st, 2022.
More questions ?	If you hesitate or need more information, send us an email to this address: info@ern-lung.eu
